Read the text about the solar system. Are the sentences 1-7 true, false or not given? Put a cross (X) in the correct box.

The first one (0) is an example.

The solar system is composed of the sun, and the planets, satellites, asteroids, comets, and all the other objects that orbit around the sun. The sun is a star, it gives us heat and light, so we can't have life without the sun.

There are 8 planets in the solar system. Each planet has a name. Starting from the sun we find: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune.

Some of these planets have one or more satellites. The Earth has one satellite, the moon. Jupiter has more than 60 satellites.

	True	False	Not given
0. The sun is a star.	X		
1. Uranus is the third planet from the sun.		X	
2. Each planet has a satellite.		X	
3. Our satellite is the moon.	X		
4. Jupiter has more than 60 satellites.	X		
5. There are 5 planets in the solar system.		X	
6. The Earth is between Venus and Mars.	X		
7. Halley is a very famous comet.			X

Read the text about a farm. Choose the correct answer (A, B, C or D) for questions 1-5. Only one answer is correct.

The first one (0) is an example.

Many people live in Springville. It is a nice town between a lake and a mountain.

Paul is a farmer and he lives in Springville with his family: his wife Liza, his daughter Nancy and his son Adam.

On their farm there are a lot of animals: cows, horses, sheep, hens and Buffy, a big dog.

Buffy is Adam's favourite animal on the farm. It is big and it has got long, black fur.

Nancy likes horses. Her favourite horse is Apollo, a very beautiful white horse.

Nancy and Adam like living on a farm!

0. Springville is:

- A. a big city.
- B. a nice town.**
- C. a farm.
- D. a port.

1. Near Springville there is:

- A. a river and a mountain.
- B. a lake and a river.
- C. a lake and a mountain.**
- D. a lake and a river.

2. Paul lives with:

- A. his sister.
- B. his mother.
- C. his family.**

Read the text about penguins. Answer the questions (1-6). Use a maximum of 4 words. Write your answers in the boxes.

The first one (0) is an example.

Penguins are very unusual: they are birds but they can't fly. They aren't fish but they can swim very well.

They are sea-birds: they use their wings to "fly" underwater, but they cannot fly in the air. They are at home in the ocean.

They catch their food underwater. They eat fish and other sea food.

They are black and white.

Penguins live only in the Southern Hemisphere of the world where it's very, very cold.

Penguins lay two eggs per year and raise their babies on land.

0. What kind of animal is the penguin?	Penguins are birds.
1. What can they do?	They can swim. / Penguins can swim.
2. What do they eat?	Fish and sea food.
3. What colour are they?	Black and white.
4. Where do the penguins live?	In the Southern Hemisphere.
5. How many eggs do they lay?	They lay two eggs. / Penguins lay two eggs.
6. .Where do their babies born?	They born on land.
